

ATIP Request# 18-01272-F226

The request reads as follows:

"I am submitting this ATIP to request a COMPSTAT list of all charges recommended by the RCMP for offences occurring at the University of British Columbia's Vancouver campus since September 2013. I would like this list of charges to include the date of the offence, the approximate location on campus that it occurred. I would also like this list of charges to be broken down by Criminal Code section, and to include Administrative Offences including Motor Vehicle Act offences or alcohol-related offences."

Please refer to the attached data table which provides the file number, report date, the street name (approximate location), the Uniform Crime Reporting (UCR) Code and the relevant Canadian Criminal Code section if applicable. Data extracted on 2018-02-26.

Caveats:

- The University of BC (UBC) campus is identified in PRIME as Zone UNA within the University RCMP jurisdiction. Files were pulled from PRIME within Zone UNA in order to obtain offences occurring on the UBC campus.
- Please note that the data was pulled from PRIME by pulling all of the files where the CCJS status was listed as "Charged". This means that the file had at least one charge submitted to crown. There may be more than one charge submitted on each file. Police in BC only recommend charges to crown while crown is responsible for the laying of charges.
- The offences listed in the UCR and CCC section may not be the actual charges submitted for the file, but rather reflect the first most serious offence listed on the PRIME file. The charges may have been submitted for a completely different offence contained in the file or in some cases more than one offence for each file listed. A more extensive manual file review would be required in order to determine the exact charges submitted for each of the files listed with a CCJS status of "charged".

File Number	CCJS Status	report_date	street_name	UCR Code	UCR Ext	UCR Description	CCC Section
